LONDOM (AP)—Prime Minister Macmillan and President Kennedy were reported today to be weighing an urgent new plea to Premier Khrushchev to help stave off a resumption of atmospheric nuclear tests.

British sources said the step is under high-level study in London and Washington and a decision may be near. It probably would take the form of a personal message asking Khrushchev to make a test-ban treaty possible.

HAVANA (CP) - Fidel Castro, in a move apparently aimed at helping Cuba's decaying economy, wants \$62 million in American dollars for the re-lease of 1,180 captured Cuban invaders.

The Cuban premier will me here Tuesday with a four-man delegation representing fami-lies of the prisoners in hopes of obtaining from \$25,000 to \$500,000 in fines for individual members of the invasion force.

The government ruled Sur day if Castro's price is not met the men would have to spend 30 years at hard labor for their part in last April's abortive invasion. The announcement was made in Sunday editions of government-controlled news-

NOT TRACTORS

The committee's cable, signed by chairman Alvaro Sanchez. Jr., said the "firm offer does not refer to tractors." In a speech last May 17 Castro made his "tractors for prisoners" offer, asking that the captives be exchanged for 500 tractors worth about \$2\$ million. He later said he wanted lion. He later said he wanted heavy-duty tractors which would cost considerably more.

All attempts to make the ex change failed and the Cuban dictator subsequently in-creased his demands until a \$28 million price tag was placed on the prisoners. Castro more than doubled this

One was from Grenville Dundas, a constituency in Eastern Ontario now represented by Progressive Conservative Jean Casselman.

The second is from Kamloops in British Columbia, which has been represented by Justice Minister Fulton since 1945.

In Washington, the administration had no official comment. It appeared the United States, which the court-martial board at the prisoners' trial charged with financing and backing the invasion, would take no official part in the negotiations.

The board's ruling said President Kennedy had "admitted all responsibility for the invasion after it had failed."

NEW LOW PRICES ON ALL ATLAS TIRES

Esso dealers sell many lines of Atlas tires. There's a quality Atlas tire for every type of driving and every budget.

The prices on all Atlas tires have now been substantially reduced, with no reduction in quality.

For instance, the "first line" Atlas Plycron, the Atlas tire equivalent to those installed on new cars, used to list at \$24.35 (6:50 x 13, tubeless blackwall). The new suggested retail price is \$13.40. In the same way, the "third line" Atlas Mile-Pak, the Atlas economy fire, used to list at \$13.95 (6:70x15, tubed blackwall). The new suggested retail price is \$12.95.

Atlas recognizes there are other tires on the market for \$9.95 or less. They are called "fourth line" tires. And they are just that. The price reflects the quality. Atlas does not sell a fourth line tire because it has not found a fourth line tire that will meet Atlas standards of quality and

MPs Need More Pay

A CROSS CANADA POLITICAL parties have been nominating candidates for the general election expected during the next three months. In true democratic tradition, those nominations have generally been contested. More than one person has wanted to carry his

party's colors.
Yet, where excellent men have been found as standard-bearers, they have scarcely been encouraged to seek office by the financial sacrifice that membership in the House of Commons involves.

Too often the best men have not been available because they could not afford to run the risk of being elected and thereby forced to live and support their families on reduced income

The situation in Victoria illus the situation in victoria inde-trates the point. Neither of the major national parties can pretend that, since the retirement of Dr. Frank Fairey, it has nominated a candidate as able and as representative of the city as might have been found here.

Members of Parliament at present receive \$8,000 a year in annual indemnity and another \$2,000 taxexempt in expenses. This may be good pay for a bad, or dilatory member. It is anything but that for the competent person who must, in most cases, sacrifice his business or professional earnings and submit

himself to exceptional expenses.

In this part of Canada, for instance, a family man elected to Parliament must be prepared to set up and maintain two households—one in his constituency, the other

A CROSS CANADA POLITICAL in Ottawa. He is the man approach d at the top of everyone's charity drive, must undertake the entertainment of visiting constituents, travel widely and meet very special costs which fall upon him as a member.

There are many impulses which direct a man or woman into politics and to membership in the House of Commons. Money is only one of them. And to a great many able people making a success of their particular vocations, the pay for a member is a discouragement, not an inducement. For that ment, not an inducement. For that reason many good potential candidates never permit their names to go before a nominating convention, and very good members suffer financial injury because they seek office and are elected.

The other day in Ottawa, Mr. Douglas Fisher drew the question of members' income to the Government's attention. He suggested that

ment's attention. He suggested that immediate consideration be given to the need of raising the indemnity or the expense allowance and he asked government leaders to discuss the matter with leaders of other parties.

Because an election is in sight because an election is in sight and because action by the House to raise its own pay is not popular— it has been called a "grab" on other occasions—Mr. Fisher's mo-

But his point is well taken. If Canadians want the best possible people in Parliament, the financial rewards offered them for service must be increased. The issue must he faced sooner or later.

THE VOICES OF TWO MORE leading Canadian businessmen have been added to those urging this country to take a co-operative approach to the European Common Market and Britain's membership in it.

in-it.

Mr. C. W. Gibbings, president of the Saskatchewan Wheat Pool, points out that Canadian wheat, because of its superior qualities, will still be in demand in overseas markets and should be readily saleable in the Common Market countries. in the Common Market countries for blending purposes. There will be heavier competi-

tion in the manufacturing indus-tries, and greater difficulties in adjusting to the new foreign market and tariff situation. The president of the Montreal Stock Exchange, Mr. Eric Kierans, suggests that Canada may have to extend to Europe the preferential tariff now to Britain if markets now accepting Canadian manufactured goods are to be held. And this would result in considerable adjustment in the Canadian industrial picture.

But Mr. Kierans has been a consistent supporter of Canadian co-operation with the ECM, and he believes that Canadian industry can survive the dislocations that would

The point, however, is that Canada has no choice. Aloofness from the Common Market will not help the country to avoid the problems that will arise as a result of the European economic grouping.

We are copy to be affected and the country of the European economic grouping. We are going to be affected, and on the whole, advantageously, by the new development. But by pretending to have nothing to do with it we will lose our opportunity.

There are only two choices, and the other one is to negotiate with the ECM, accept the new trend in free world trade, and join in to the fullest extent—as the United States is doing—to reap the many advan-tages that are to be gained.

The present Diefenbaker policy of opposition and rejection will leave Canada out of the new, freer trade picture, in an exclusive and increas-ingly hungry state.

For World-Wide Attention

terday, launched a year of concentrated attention to the problem of

blindness throughout the world.
Canadians are being asked to give particular thought this week to the affliction of blindness and gift of sight. Fifty per cent of blindness is said to be preventable; and in parts of Africa and Central America, where disease brings blind-ness to whole villages, at least twothirds could be avoided.

Hooray for Monte Roberts and all who would Save Foul Bay Road! wine would save Foul Bay Road!

Probably every university city in the land has a "University Road" or Street or Boulevard or Way or Square or Circle or Avenue. How many places have a "Foul Bay Road"?

Relief for Migraine

headaches that I have written a booklet on the subject. There is one drug which, if taken the mirute the headache starts, or before

nausea has come, will give relief in perhaps 85 per-cent of cases. It is called ergotamine. In America it is sold in

an ampule for hypoder-mic use under the name Gynergen, also in pill form—called Cafergot or

Wigraine. It is also pre-pared as a tablet to dis-solve under the tongue, or as a supposite to be put in the rectum, or as a medicine

be blown into the back of the mouth with a Medihaler. Medihaler.

The important point to remember is that it is useless to take any drug by mouth after nausea has started. If a woman gets fuzzy-eyed before her headaches, she must take the drug the minute her vision fails. If a woman has, besides her terrible headaches, mild ordinary fatigue headaches, she must not wait too long to see what type of headache she has.

ache she has.

A good way of telling is, while sitting, to put her head between her knees. If then it starts throbbing, a migraine is on its way. In the worst cases, someone in the family ought to learn to use a hypodermic syringe so as quickly to give the injection of Gynergen.

gen.

Another drug closely related to ergotamine—one which is perfectly safe and very comfortable to use—is DHE45. Unfortunately, it is not strong enough to relieve the Bewerest headaches.

For some almost unexplainable reason many doctors are afraid of ergotamine. I am not because I have been giving if to hundreds of patients for the last 40 years, and I have yet to see anyone injured by it. and I have yet to see anyone injured by it. I know a number of people who have taken Gynergen every night for the last 15 or 20 years and they have no trouble with their

For a number of reasons that I do not understand, in the cases of a few headachey people, the taking of a small dose of ergotamine at bedtime protects them from getting a headache the next day.

If a woman lives sensibly without stormy emotions, the spells should be gone by the time she is 20 or 30. If the spells keep com-

ing after that, and epecially if they are severe, there is an extra cause, perhaps in the woman's love life, and the physician should try to remove it. Usually it is, and should try to remove it. Usually it is some worry of unhappiness of strain.

To illustrate what can happen: a sweet, old prelate came to me with terrible migraines that came every few days. I asked, when did his boyhood migraines go, and he said, "When I was thirty." I asked, why did they come back. And he said, "Because my people made me a bishop. Now, with the great strain on me of uncongenial tasks, I am in serious trouble. If I could only go back to my quiet, old parish, I would be well."

It bothers me to see a middle-aged woman spending all of her savings for a "complete examination" which she thinks in some miraculous way will bring about a cure. I would not consent to waste her money that way. In 40 years of studying migraine I cannot remember when a complete examination revealed any disease in chest or abdomen which had anything to do with producing the headaches. They come out of an inborn irritable spot in the brain. One can sometimes find a gallstone or uterine fibroid but the surgical removal of such disease, in my experience, has never cured the migraine.

graine.

I am a hundred times more likely to help the migrainous woman if I sit down with her for two or three one-half-hour sessions in which I can ask about her life, and find out what her sorrow or strain is. Many is the time when, after a long chat with me about her worries and problems and Iatigues, a migrainous woman has lost her headaches. When she found out why she was getting them, she quit fretting and fussing at the hardships in her life and accepted them.

Some people write every year to ask what they can do for diabetes insipidus. This is the rare type of diabetes in which enormous quantities of urine are passed each day, but without any excess of sugar. The difficulty seems to be sug to the trouble in or around the pitultary glaid sust below the brain and above the nose. From an editorial in the Journal of the AMA, I see that the drug chlorthiazide is now being used with advantage in some cases. It should be given together with some potassium sait. The drug can now be tried in those cases in which the patient does not do well enough on the usually given pitultary snuff or on injections usually-given pituitary snuff or on injections of pitressin in oil.

REPORTED TROUBLE

Dr. March a graduate of the University of Ottawa, reported three weeks ago that 59 Indians on the Prophet River reserve were emaciated with hunger and many suffered from hepatrits.

Dr. March's area of practice extends from Watson Lake, just north of the Yukon border, to Trutch, 500 miles south of the Alaska Highway. It is bounded by the Rockles on the west and the Alberta border on the east. He said he plans to buy his own plane and fly by float and skis.

Dr. March said he spent four years studying in the United States after graduating. He came here 15 months ago and since then much of his work has been with Indians.

Here's why some paints blister; the ever-present moisture vapour inside your home builds up. It eventually escapes through walls and siding, finally reaching the paint protecting your home. If it's conventional, non-breathing paint, the moisture is trapped, forcing the paint away from the siding, creating blisters.

SPRED HOUSE PAINT, however, "breathes". Applied over unpainted wood or previously painted surfaces which have been properly prepared, Spred House Paint resists blistering and peeling. Spred House Paint and Latex Primer can even be applied over damp surfaces Both Primer and finish coat of Spred House Paint

Luisa Spagnoli of Italy takes the supple elegance of fine DOUBLE KNIT WOOL JERSEY to create sheaths of quietly spectacular beauty... and the Bay imports them exclusively for you in time for Easter. Here's fit that's pure magic on your figure in afternoon dresses that wear with ageless, vitality through Easter, Spring and Summer. If you appreciate Continental couture, handsewn detail, flawless fashion at a minimum price, then you'll want a LUISA SPAGNOLL, ready to try now in the Bay's women's dresses, 2nd floor.

Your EASTER hat should be a beauty, and the new arrivals at the Bay, just lifted out of tissue, are just that. They're BIG-BRIMMED ROMANTICS in light organza, smooth or rough-textured straw, with brims that describe airy circles, turn demurely up, flirtatiously down, look wondrously feminine, are completely captivating. Colors are delectable: run a rainbow riot from pastels to vibrants. Below is our invitation to try these—and more for Easter—in the Bay's millinery department, 2nd floor.

Luisa Spagnoli lets wool jersey's smooth shapeliness speak for itself in this ivory sheath, buttoned, belted and set off by a curved, standaway collar. 12 to 16. \$45

Married in Wheat, (Daddy Grows It)

CLEARWATER, Kan. (AP)—When Cheryl Heitman, 18, and James Kunkel, 27, were married here Sunday: The bride wore a vell and white tiara nade of wheat grains and carried a wheat botquet.

The matron of honor and bridesmaids wore wheat corsages. The ushers and best man wore wheat buttonieres and the flower girl carried a basket decorated with wheat sprigs.

ieres and the flower girl carried a basket decorated with wheat sprays and bouquets decorated the church. At a reception afterwards, the 350 guests were served delicacles made with wheat.

As they dashed from the church the newlyweds were showered with grains of wheat.

The bride's father is a wheat farmer.

The groom works for a chemical company.

Is there something you want to know? Do you want to win a set of sable books or other instructive prizes? Then sak Andy. Andy will answer questions submitted by child readers and those who submit the questions he selects to answer will receive worthwhile prizes. SURELY IT would be almost impossible offnand to dream up a more perfect host than Waiter Pidgeon for something as name and unnecessary as a study of American society that was undertaken Friday night by NBC under the title of "The Vanishing 400."

The above isn'; meant to be an indictment against society as the word has come to be understood through the gushings and pantings of columnists who go in for this sort of thing, certain magazines devoted to name-dropping and, of course, to one of the best read sections in newspapers all over the world.

Immaculate in dinner jacket Pidgeon represented perfect everyone's idea of the "perfect gentleman"—connois segur, dilettante, bon vivant, erudite, handsome, modest, suave, sophisticated and oh so beautifully spoken.

But best of all, as he treated with the Astor's, the Morganis, the Vanderbilts, the Whitneys and all the others in tracing the rise and fall of the upper crust.

There is a steady trickle of rumors these days concerning Western Mines Ltd. which bounced up to a new high of \$2.55 in heavy trading Friday. Most persistent story is that Noranda Mines Ltd. is continuing heavy buying of Western stock and it is thought possible that a large block of the recently underwritten and optioned 600,000 shares on which Consolidated Mining & Smelting passed its sub-option rights — is destined for Noranda.

It is also reported that Western is due for ilsting soon on the Toronto Stock Exchange.

Proposal Criticized

There are no labor strikes this year (judging by some recent utterances of I WA leaders, this is by no means sure);

Current markets remain available (American hollering about "unfair competition" and the uncertain common Market situation make for interesting speculation);

The discount rate on the Canadian dollar remains at about its current rate (here the prospect is brighter since there seems to be at least an even chance of the dollar being discounted even further despite current government efforts to protect it).

Mr. Beaupre noted that lumber prices held reasonably firm during the winter and there was a "slight increase" in plywood prices over the extremely low level that existed last November.

Pulp orders permitted the Crofton mill to boost its operating rate from 85 to 95 per cent capacity had tended to depress prices.

Mr. Beaupre stated that the contract for site preparation and foundation construction for the Crofton newsprint mill would be awarded next month. About \$8 million worth of equipment has been ordered.

Speaker Rejects Columbia Debate Bid 3-Way Tie

OTTAWA (CP)—Speaker Roland Michener ruled out of order an opposition attempt today to debate criticism by Gen. A. G. L. McNaughton of the Columbia, River Treaty with the United States.

The Speaker said Prime Minister Diefenbaker informed the Commons earlier that the treaty ratification would not occur until the House had a chance to debate it.

For that reason, he held that there was no public ency for debate at this time.

Broughton and Government.

They found the deft doggie to be Prince, an Alsatian belonging to the Western Home Guard Patrol. Apparently the dog was in the back seat of one of the patrol's cars parked on Broughton and had jumped into the front, releasing the emergency brake.

The car had rolled down the sloped street into the intersection with Government and hence the night watchman's startled report.

Police told the patrol to either get a safety device fitted to the car or provide Prince with a uriver's licence!

Quick check with John Hardy, manager of Macdonald's Consolidated Ltd., which distributes the honey, revealed that there was no deception involved.

The wholesale firm had had a contract with an American producer of a "very delightful" honey but the supply proved too small for its needs and a new supply was obtained from Atherica producers.

GOVERNMENT TAKES SOME CREDIT

A Year of Expansion As Economy on the Move

OTTAWA (CP) — Canada's estry production declined, economy took a cue from improved business conditions in the United States and enjoyed "a year of expansion" in 1961, the government said today. Finance Minister Fieming's budget white paper, tabled in the Commons, indicated last year's spring thaw coincided with a major shot-in-the-arm to Canada's economic bill of health.

The production declined, while that of Sshing and trapping was up.

The pickup in production, offset seasonal factors, decombined with relatively clined to 6.1 per cent of the older in January.

The exemption limit for desth duties was raised slightly along with small-income relief on in-employment rate, adjusted to offset seasonal factors, decombined with relatively clined to 6.1 per cent of the labor force in December from purpose and the paper, tabled in the Commons, indicated last year's spring thaw coincided with a major shot-in-the-arm to Canada's economic bill of health.

River Pilots To Meet Balcer

MONTREAL (CP) - Strikling St. Lawrence River pilots, backed by a promise of support from pilots across Canada, are to meet in Ottawa late 'today with Transport Minister Balcer to try to settle the dispute.

Minister Baleer to try to settle the dispute.

The meeting is the first attempt to reach a settlement since the pilots walked off their jobs early last Friday because of what they called the negative attitude of shipowners toward meeting requests for changes in working conditions.
